

# About the Speaker

## Thomas J. McGarry, D.D.S.

Dr. McGarry received his D.D.S. degree in 1975 from UMKC School of Dentistry, his certificate of Prosthodontics in 1978 from UCSF/VA San Francisco, and became a Diplomate of the American Board of Prosthodontics in 1991. He is a fellow in the American College of Prosthodontists and has served as President of the College. He is a member of the ADA,

Academy of Osseointegration, American Academy of Fixed Prosthodontics, Academy of Prosthodontics, Greater New York Academy of Prosthodontics, and the American College of Dentists.

Dr. McGarry maintains a full-time private practice limited to Prosthodontics.

*"It was Dr. Tom McGarry's encouragement and guidance which fueled my inspiration to start mainstream implant placement in my prosthodontic practice."*

Ric Shaw, Prosthodontist, Austin, TX

*"Tom McGarry is a national leader and teacher whose enthusiasm and vision has been instrumental in promoting Implant Prosthodontics. This is a great opportunity for other clinicians to benefit from his clinical expertise."*

Burt Melton, Prosthodontist, Albuquerque, NM

*"Dr. Tom McGarry is an extraordinarily committed dentist specializing in Prosthodontics and Implant Surgery. Few individuals have the vision and commitment to expand knowledge so that patients are better served by the most modern restorative technique."* Kenneth A. Malament, Prosthodontist, Boston, MA

**Creating Excitement in  
Removable Prosthodontics  
With High Technology**

**September 9-10, 2005**

**Oklahoma City, Oklahoma**

# Course Description

This course is designed to enable the dental professional and assistants to integrate new technologies and materials into partial and complete dentures to achieve predictable success and exceed patient expectations.

# Course Objectives

- Establish patient expectations based on anatomy and procedure selection
- Offer patients affordable alternatives to traditional RPDs and dentures
- Increase the stability of partial dentures by incorporating dental implants
- Increase the clinical responsibilities of the dental assistant
- Increase expertise with advanced materials and associated technologies

# Day One Schedule

## Friday 7:30am-5:00pm

- 7:30-8:00 *Registration*
- 8:00-10:00 *Potholes and Pitfalls*
- Correlating patient expectations with anatomic limitations using an "Expert" diagnostic system
  - Selecting the right procedure for the diagnosis to achieve patient expectations
  - Live patient demonstration
- 10:00-12:00 *Hands-on Diagnostic Workshop*
- Classification systems
- 1:00-2:00 *Introduction to Advanced Materials and Procedures*
- Eclipse denture processing system
  - Triad Acrylics
  - Impression materials and trays
- 2:00-5:00 *Accelerated Laboratory Procedures*
- Advanced materials clinic in professional teaching laboratory
  - Record-based fabrication
  - Lingualized occlusion
  - RPD framework fabrication

# Day Two Schedule

## Saturday 8:00am-12:00pm

- 8:00-9:00 *Integrating Implants and RPDs*
- 9:00-10:00 *Integrating Implants and Complete Dentures*
- 10:00-12:00 *Occlusion and Jaw Relation Records*
- 1:00-2:00 *Hands On RPD Design Workshop*
- 2:00-3:00 *Hands On Laboratory Workshop*
- Connecting attachments to RPDs

Hands-on laboratory workshops will be located in the on-site 12 station professional laboratory. In order to provide each course participant with a personalized educational experience, enrollment is limited. Full tuition must accompany the registration form for a valid reservation.

*Will Rogers World Airport is a convenient 20 minutes away*
