SOLUTIONS FOR SUCCESS: Intro to Implant Surgery

— DR. THOMAS J. MCGARRY —

Dr. McGarry's extensive prosthodontic experience and enthusiasm sheds a wealth of practical light on implant surgery in this insightful course. Dr. McGarry received his D.D.S. degree in 1975 from the University of Missouri at Kansas City, his Certificate of Prosthodontics in 1978 from UCSF/VA San Francisco, and became a Diplomate of the American Board of Prosthodontics in 1991. He is a fellow in the American College of Prosthodontists and has served as president of the college. He is a member of the ADA, Academy of Osseointegration, American Academy of Fixed Prosthodontics, Academy of Prosthodontics, Greater New York Academy of Prosthodontics and the American College of Dentists. Dr. McGarry maintains a full-time private practice limited to Prosthodontics.

At the completion of this course, you will...

- Be aware of the most advanced and least invasive techniques of tooth replacement.
- Be familiar with the process for implant case selection, treatment planning and the creation of case workups.
- Have had exposure to all prosthetic aspects of implant dentistry (planning, uncover, impressions and final restoration).
- Understand appropriate, case-specific fee structures and applicable cost specifics.
- Possess communication skills for presenting implant treatment options and gaining patient case acceptance.
- Appreciate the importance of the "team approach" to implant dentistry.
- Increase patient satisfaction by presenting esthetic and functional solutions for missing teeth.
- Reduce complications associated with malpositioned implants.

Course Description: June 29 - 30, 2007 & October 19 - 20, 2007

Through exciting, hands-on course work, this introductory, two-day dental implant surgery course teaches the successful planning and treatment protocols you need to advance your implant skills with confidence. You'll also learn how to overcome anatomical limitations to achieve predictable implant positioning that will be the foundation for your esthetic restorations. With its interactive, small-group, practical approach, this course includes live-surgery demo and first-hand participation. Whether you are just getting started in implant dentistry or looking to further develop your implant skills, you will benefit both personally and professionally from this fresh and practical program.

LEARN. APPLY. GROW.
